Abraham Lincoln Presidential Museum Springfield, Illinois

The new Abraham Lincoln Presidential Museum houses the state's priceless collection of Lincoln artifacts and serves as the central focus of Lincoln's legacy in his hometown. A distinctive feature of glass and aluminum curtain walls with floor-to-ceiling windows surrounds the library.

Kroll Security Group provided security programming, construction documents and construction administration for the new Abraham Lincoln Museum and Library Complex.

Services included design and engineering of a comprehensive intrusion alarm system to include special designs for display cases and a walk through scene display of Lincoln's life.

Additional systems included state of the art Access Control, Closed Circuit Television, Intercom systems and a Security Command Center.
