

# Roy L. Parks

**Senior Associate  
Engineering & Consulting**

916 248 5554  
rparks@securesights.com

13 Feather River Ct.  
Roseville, CA 95678

Mr. Parks has 33 years of professional experience in all aspects of security related systems with emphasis on project management, conceptual and design development of physical and electronic security measures and phased/sequenced implementation for government, transportation, healthcare, education, corporate and industrial facilities, as well as, executive estates and exclusive residential projects.

In addition, Mr. Parks has 24 years of supervisory, managerial and training responsibilities, including project programming and management, security solution design, bid process and construction administration of an extensive number of security projects into which were incorporated a diverse range of equipment for both public and private sectors.

Through his extensive experience, Mr. Parks has in-depth working knowledge of manufacturers' products applicable to security solutions design and integration of systems including enterprise access control, intrusion detection, biometrics, intercommunications, video surveillance, video analytics, recording systems and command and control environments.
